What is a Visual Workplace?

A Visual Workplace is not about buckets and brooms or posters and signs or a handful of metrics. It is a compelling operational imperative, crucial to meeting daily production goals, central to your war on waste, vastly reduced lead times and an accelerated flow. Workplace visuality is the language of excellence made visual and the glue that holds all other improvement activities together and makes them sustainable.

In this seminar, you learn visual principles and practices and how visual devices “…create a workplace that is self-ordering, self-explaining, self-regulating, and self improving—where what is supposed to happen does happen, on time, every time, day or night, because of visual solutions.”

Whether you are well on your journey to enterprise excellence or about to begin, visuality will empower your workforce, transform your workplace, and accelerate your improvement results and make them sustainable.

Gwendolyn Galsworth, Ph.D., is president-founder of Visual Thinking Inc., a training, research, and consulting firm—and The Visual-Lean Institute®, training trainers in nine core visual workplace courses.

Galsworth helps companies around the globe accelerate their rate of transformation, strengthen cultural alignment, and achieve long-term sustainable results through workplace visuality. Visit: www.visualworkplace.com.

I’ve attended many seminars on lean and have chosen visuality as the path for our company. This gives us the missing link for our focused factories and work cells.  
B. P., Goshen Rubber

Galsworth is the world’s foremost authority on visual management. She raises the stature of visuality, hardens soft notions about it, and embeds it in structure and theory.

Richard Schonberger, author of Let’s Fix It!

Kimray is an Oklahoma City based world-class manufacturer of control equipment used extensively in oil and gas production in North America and around the globe. Founded in 1948 by Garman Kimmell, Kimray operates a 360,000 square foot facility and employs more than 800 people to serve an expanding customer base. Kimray machines iron, steel, and aluminum, as well as thermoplastic materials, to build their comprehensive line of control valves, thermostats, energy-exchange glycol pumps, gas-operated pilots and other control devices. Their products are used to control vessel and lead line temperatures, liquid level inside pressurized vessels, pressure drops, and liquid and gas flow.
## COURSE AGENDA

### Wednesday, May 14, 2014

8:00 am – 4:30 pm

Hear Dr. Gwendolyn Galsworth, leading authority on visuality in the workplace, discuss her unique approach to workplace visuality. Learn about the principles, concepts, methods, and tools that show you what a visual workplace is and why it’s so important. Identify the keys to sustainable results through people. See dozens and dozens of actual visual solutions, invented by employees who have learned how to think visually. Learn about the triumphs and pitfalls of a visual implementation. Then get ready for your next steps.

*Group Size for the seminar is limited to 50.*

### Thursday, May 15, 2014

8:00 am – 3:00 pm

Participate hands-on as teams tour Kimray Inc., a world-class manufacturer of control equipment used extensively in oil and gas production in North America and around the globe—and assess the site’s current level of visual competency. Then compare your findings with other teams and envision Kimray’s next visual steps as Dr. Galsworth frames the exchange and facilitates further learning.

*Group Size for the tour (only) is limited to 30, first come/first served. (Tour attendees must participate in previous seminar day.)*

### Location

Francis Tuttle Technology Center  
12777 N. Rockwell Ave.  
Oklahoma City, OK 73142  
PH: 405-717-7799

*Out of town attendees can stay at the Springhill Suites, 3201 W. Memorial Rd, Oklahoma City, OK 73134, PH 405-749-1595  
Ask for the AME room rate of $109.00 per night (shuttle service to and from the event will be available)*
