

2015-2016 Job Placement Information

The data below shows job placement data collected for students who completed their programs in the most recent school year. The last column shows the positive placement percentage, which includes any student employed in a job related to their program, in the military, or continued their education in another program at Francis Tuttle or at another school. The positive placement percentage does not include students who were unemployed or in a job not related to the career cluster for their program. To protect the privacy of the students, we only disclose the placement data for programs that had 10 or more completers within each award year.
