

The data below shows job placement data collected for students who completed their program or finished at least 240 hours of their program in the most recent school year. The last column shows the positive placement percentage, which includes any student employed in a job related to their program, is in the military, or who continued their education in another program at Francis Tuttle or at another school. The positive placement percentage does not include students who were unemployed or in a job not related to the career cluster for their program. To protect the privacy of students, we only disclose the placement data for programs that had 10 or more completers within each award year.

Campus	Program	Military		Employed Related to Program		Employed Related to Cluster		Employed Not Related		Continuing Education		Unemployed But Seeking		Not in Labor Force		Total Known Placement		Status Unknown		Totals Completers/ Concentrators		Positive Placement
