Dear Practical Nursing Program Applicant,

Thank you for your interest in the Francis Tuttle Practical Nursing Program. On behalf of our faculty and staff, I am delighted to welcome you as you take this important step toward a rewarding career in nursing. Choosing to pursue your education with us is an investment in your future, and we are fully committed to supporting your success from the first day of class through professional licensure.

I want to highlight a couple of tremendous benefits you will receive by choosing our program. First, Francis Tuttle pays for your nursing licensure exam, the NCLEX-PN. This is a significant financial support that helps you transition smoothly from student to nurse. Second, Francis Tuttle also pays for you to complete a live NCLEX review course prior to graduation. We believe strongly in preparing our students not just for coursework, but for successful licensure and long-term professional growth. These resources reflect our dedication to your success and to helping you enter the workforce with confidence.

The Francis Tuttle Practical Nursing Program provides students with an innovative, industry-driven educational experience that prepares them to deliver high-quality health care in a variety of settings. You will learn in an environment designed to mirror real clinical practice, including a state-of-the-art mini-hospital used for hands-on nursing skills preparation and technologically advanced classrooms that support interactive and collaborative learning.

Upon completing the program and successfully passing the NCLEX-PN, you will become a Licensed Practical Nurse (LPN). This credential opens the door to a variety of career opportunities and also provides a strong foundation for those who choose to advance to a Registered Nurse (RN) role by completing an RN program and meeting RN licensure requirements.

We are honored that you have chosen to begin, or continue, your healthcare journey with us. I look forward to welcoming you to the Francis Tuttle community and supporting you as you work toward your professional goals.

Warm regards,

LaDonna Selvidge, MS, M.ED., RN

Financial Aid Students: If a student completely withdraws from school, the school must calculate according to a specific formula the portion of the total scheduled financial assistance he or she has earned and therefore is entitled to receive up to the time of withdrawal. The portion of the federal grants the student is entitled to receive is calculated by comparing the number of hours the student was scheduled to complete in the payment period to the total number of hours in the payment period. Once a student has been scheduled to complete more than 60% of a payment period, he or she has earned all aid for that period. If a student has not been scheduled to complete more than 60% of a period, that student may owe funds back to the federal program. Francis Tuttle will also return to the Title IV Programs the percentage of unearned tuition of students who do not complete more than 60% of a period.
